Call for Papers

For our academic conferences and journals

Please Join Us at one of our annual academic conference locations described below. Since the 1990's, we have hosted conferences to promote excellence in academic research. Our conference locations are chosen to enhance your experience inside and outside the conference sessions.

We offer four tracks at our conferences: Business & Economics, Education, Engineering Education, and Health Sciences. Papers that receive the "Best Paper" award in each conference session are automatically reviewed for possible publication in one of our journals.

For additional details about our conferences and our academic journals (all indexed in Cabell's and many other directories), please visit our website or send us an email.

Conferences:
